2 To

The Director of Ind. & C.

Dev. I.C. 3152 of 1924.

Sir,

I am directed to say that Government desire that the Shroff furnish information regarding the minerals found in the State by Railway to the Director of Geology as early as possible after information is received by him so that the Director of Geology may use it for checking the returns of despatches of minerals given to him by holders of P. L. and mining leases.

Copy to the Director of Geology

Dev. I.C. 153 of 1924.

NOTE—Contn. Sheet

GEN. & REV. SECRETARIAT
17 NOV 1924
INDUSTRIES & COMMERCE BRANCH.

To

The Director of Ind. and Com.

Sir,

There is at present no satisfactory check on the quantity of minerals removed by holders of prospecting licenses and mining leases in the State, as the Department has to rely entirely on the statements of quantity of ore booked on the Railway Stations forwarded by the licensees. Government consider therefore that it is necessary to have some kind of check on the statements sent by licensees ~~Director of Industries and Commerce is now incurring a special charge for the collection of information relating to~~ the Rail-Borne Traffic and the information thus obtained regarding minerals may well be made use of for the purpose of checking the returns of the licensees. Government ~~are therefore pleased to direct that~~ information regarding minerals sent out of the State by Railway ~~be furnished~~ by ~~the Director of Industries and Commerce~~ to the Director of Geology, as early as possible after the information is received by ~~the for~~ mer, so that ~~the latte~~r may check the returns of despatch of minerals given to him by holders of prospecting licenses and mining leases.

GENL REV. SECTION
2327
1 NOV 1924
INDUSTRIES & COMMERCE
BRANCH.

At present there is no satisfactory check on the quantity of minerals that is removed by holders of prospecting licenses and mining leases in the State. These people pay Royalties only when the ore is booked at the Railway Stations. As regards the actual quantities so booked we have to depend entirely on the statements made by them. It is necessary that some kind of check should be made on the statements made by these people. In the Department of Industries and Commerce special expenditure is incurred for the collection of information relating to the Rail-Borne Traffic. It is necessary that the information regarding minerals sent out of the State by Railway should be periodically furnished to the Director of Geology so that the latter may check the returns of despatch of minerals given to him by persons who hold prospecting licenses and mining leases.

Please put up a draft order for consideration.

By Order,
Rev.Secretary

To

The Asst.Secretary,
Industries & Commerce

The Director of Ind. and Com.

Sir,

There is at present no satisfactory check on the quantity of minerals removed by holders of prospecting licenses and mining leases in the State, as the Depart ment has to rely entirely on the statements of ~~quantities~~ ore booked at the Railway Stations forwarded by the licensees. Government consider that it is necessary to have some kind of check on the statements sent by licensees. Statistics of the Rail-borne Traffic is now collected by your Department and the information thus obtained regarding minerals may well be made use of for the purpose of checking returns of the licensees. Government therefore desire that you should furnish information regarding minerals sent out of the State by Railway to the Director of Geology, as early as possible after the information is received by you so that he may check the returns of despatch of minerals given to him by holders of prospecting licenses and mining leases.
